

# Anti-Bacterial Sanitiser

## All you need to know

### Product Information

MK Medical's concentrated Anti-Bacterial Cleaner & Sanitiser delivers an unbeatable clean, removing dirt, grime, and 99.999% of bacteria, including harmful pathogens, in one swift application.

#### Jack of all trades:

Suitable for kitchens, bathrooms, floors, public areas, medical equipment, homes, offices, factories, businesses & much more.

#### Eco-Friendly & Biodegradable:

Our cleaner is tough on bacteria but gentle on the environment. Fully biodegradable, it supports your efforts to reduce your carbon footprint without sacrificing performance. It's 100% plant-based and eco-friendly.

#### Proven & Certified:

It meets the highest industry standards, approved to:  
BS EN1276,  
BS EN13697  
BS EN 14476

It's anti-bacterial, anti-viral & anti-fungal and kills 99.999% of all known germs.

The concentrated formula means you get more bang for your buck. Our 200ml bottle gets you 20 litres, and our 5 litre drum gets you a whopping 500 litres.

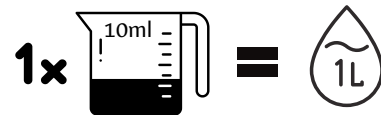

Buy once and dilute as required.

### Applications & Directions

Apply Anti-Bacterial Sanitiser directly onto surface and wipe clean. Allow for 30 seconds dwell time for heavily soiled surfaces.

For larger surface areas such as floors, use a mop & bucket.

Just 10ml of concentrate makes 1 litre of product.

Dilute with water.
